Mini Project details

Project Name: Green Air Conditioning

Role: Project leader

Team size: 5

Project Details

Normally air conditioners releases a lot of CFC (Chlorofluorocarbons) gases. These CFC gases may leads to global warming and ozone layer depletion. To avoid the release of these gases green air conditioning has been introduced. Here we use aluminium setup and PVC pipes, total setup is kept inside the earth to a depth of 3 km, by using this green air conditioning, we can receive a fresh air in air conditioners. This system is totally an eco-friendly.
