MARITAL STATUS

- SINGLE

PROJECT DETAILS

TITLE: USE OF LIGHT WEIGHT CONCRETE

DESCRIPTION: With the rapid growth in building construction and urbanisation building are getting taller and bigger than ever. In India, majority of structures are constructed with the help of concrete resulting into very heavy structures. Heavy loads are one of the limitation of construction of tall buildings .If somehow structures are made lighter cost of construction can also be lowered down. Conventional concrete is one of the main reason in increasing the weight of the buildings.

DURATION: 3 MONTHS
