PROJECT HISTORY:

Project Name: ORACLE HYPERION - PCMCS APPLICATION

Client: APOLLO HOSPTIALS ENTERPRISES LIMITED

Description: **Apollo Hospitals** has emerged as Asia's foremost integrated healthcare services provider and has a robust presence across the healthcare ecosystem, including Hospitals, Pharmacies, Primary Care & Diagnostic Clinics and several retail health models. The Group also has Telemedicine units across 10 countries, Health Insurance Services, Global Projects Consultancy, Medical Colleges, Med varsity for E-Learning, Colleges of Nursing and Hospital Management and a Research Foundation. In addition, 'ASK Apollo' - an online consultation portal and Apollo Home Health provide the care continuum. Here we extracted the data from oracle and load the extracted data to mssql. Data migration process was done by manual to cloud storage using via Hyperion tool.
